

# CLMA August Breakfast Meeting

Come join us for our quarterly chapter education meeting. This month we will hear a great presentation from the national CLMA meeting.

## Patient's I.D. - It's more than an Armband

Presented by Ann Merkle, IHC Quality Management and Steve McDermott, Biologics Products

This educational session will share potential weaknesses and loopholes in existing armband systems. An organized approach, using teams, to make vendor selections will be shared with the participants. Steve will share a new system of armbands that help to insure a positive patient ID. Systems to be included are blood bank, admitting, and a nursing alert system with patient bar code ID.

Come share a couple hours of your time at breakfast with your fellow CLMA members.

Location: LDS Hospital Education Center, Amicus boardroom  
Date: Wednesday, August 29, 2001  
Time: 7:30 to 9:00 AM  
Cost: \$10 per person - A full breakfast will be served - pay at the door
